CONSTANTINOPLE, May 27.—[By the Associated Press.] The Nationalists have subdued virtually all the territory surrounding Ismid, on the eastern end of the Sea of Marmara. They are at the very edge of the town, which is held by the British.

LONDON, May 29.—[By the Associated Press.] Disquieting news on the Turkish situation has been received in London, according to the Daily Mail, which believes a clash between British troops and Mustapha Kemal's Nationalist forces is imminent.

PRESIDENT WINS VETO. DEPLORES :: TROUBLE :: MAKERS. Urges Hands-Across-the-Sea Spirit.

Reverts to Status Quo.

Wilson's veto of the League of Nations treaty has been upheld by the Senate. The President's action was hailed by many as a victory for the peace movement.

Otto H. Kahn.

KAHN FOR CO-OPERATION WITH ENGLISH FINANCE.

World's Reconstruction is Demanding Equal Participation and Responsibility, Says the Banker.

Otto H. Kahn, of the Kuhn, Loeb & Co. bank, is advocating closer financial cooperation between the United States and England for the reconstruction of Europe after the war.

LONDON, May 28.—Otto H. Kahn, of Kuhn, Loeb & Co. of New York, in an interview on international finance, printed in the London Times today, says:

"In considering the financial position and possibilities of America, and the question of her capacity for participating at present in European reconstruction on a large scale, certain factors, peculiar to America, must not be lost sight of."

"(1) America is still a young country, in full process of development; her financial needs for her own industrial requirements are unceasing and immense."

"(2) America expended during the war in her military and naval activities \$22,000,000,000, and for loans to the Allied powers \$10,000,000,000."

"(3) For repurchasing American securities held abroad, for banker's loans to certain of the Allied powers and for credits, she paid out another \$10,000,000,000, a total of \$42,000,000,000, which in a few years is formidable even for a country as rich as America, without taking into account the demands on the country's credit and financial resources incident to immense industrial activities since 1915."

"(4) The small investor, whose aggregate demands form so large an element of absorbing power for securities in leading European countries, is not actively a small factor in America."

"(5) There are so many attractive opportunities in his own country that the average American does not have to send his capital abroad."

"Before the war there were 400,000 individual holders of bonds in America out of a population of 110,000,000. I do not believe there are many more now, except holders of war bonds, who bought under the impulse of patriotism. The bulk of these 400,000 bondholders were persons of considerable income. That class of person has largely withdrawn of late from the investment market."

HURTS INVESTMENT MARKET.

"Sixth—The result of the fact that the American market has become crippled, and in consequence, far more than formerly, the burden of providing capital for industry and commerce is thrown upon the banks, in the form of credit accommodations; but the capacity of the banks to grant credits is limited both by provisions of law and considerations of prudence; hence their inability to keep pace with the demands for credit accommodations, both at home and abroad."

"Seventh—From the consideration I have mentioned, it is evident that until appropriate revision of financial legislation shall restore a normal investment market and thus open up the closed reserve of individual accumulation, America cannot render to the world the financial and economic service which her duty and self interest require she should render."

"It has been predicted in certain quarters that New York would displace London as the world financial center. I am far from underestimating the leading position New York is sure to occupy in the world financial and commercial affairs."

(Continued on Second Page.)

WOMAN SHOT BY BOARDER.

Mrs. J. D. Albert, wife of a sailor aboard a United States Navy destroyer and the mother of two children, was shot in her apartment at 494 South Fremont avenue early today by George W. Smith, a salesman and ex-soldier, who was a boarder. After shooting her in the head and perhaps fatally wounding her, the ex-soldier then turned his weapon on himself. The bullet entered at the right temple, but caused only a scalp wound, according to Police Surgeon Crossan.

Both were taken to the Receiving Hospital. Dr. Crossan declared the woman's recovery was doubtful, depending on whether the bullet pierced the brain or merely grazed the scalp.

Smith was held by the police after his wound was dressed on a charge of assault, which will be charged to murder if Mrs. Albert dies. Mrs. Albert said that she had known Smith for about a year. While her husband was assigned to the destroyer, now at San Diego, she had moved into the room of her apartment to him, to help pay her expenses. She declared that he had tried to force his attentions on her.

Smith admitted the shooting to Detectives Parsons, Barnes, Houston and Taylor and Lieut. White, adding, "I don't know why I did it."

CHICAGO BUILDING LAGS. CONSTRUCTION BELOW LAST YEAR; BANKERS TIGHTEN EXTENSION LOANS.

CHICAGO, May 28.—One hundred million dollars of projected building operations in Chicago is tied up by the high cost of materials, difficulties in the matter of transportation and the attitude of labor.

Plans were made to make this a banner year in building, but it will fall far below the average.

In addition to the reasons enumerated, the banks are tightening their purse-strings, and it is difficult to secure loans for construction at the present inflated prices.

Loans on real estate are greatly restricted, and are not made on present inflated values, but are based upon values of 1914. Bankers and investors hesitate to put funds into a building that would cost three times its actual value, and which, if thrown on the market to pay the loan, would not realize the amount of the mortgage.

The serious transportation problem is forcing several plants to close down for lack of coal and raw material. Among the great projects that are delayed and may be indefinitely postponed are the new Union depot, the Illinois Trust and Savings Bank Building, the Board of Trade, the Blackhawk and Stratford hotels and many other big projects.

Three years ago there were employed in Chicago in the building industry 32,000 men. Today a number has dwindled to 42,000, and all indications are that this figure will be greatly decreased as soon as buildings now under way are completed.

Building permits issued in May of last year were 500 more than those issued in May of this year. Seventy permits to build flats were issued last May as against five this May and this in the face of the tremendous demand for housing.

RAIL TIE-UP PERIL PAST Roads Report Improved Affairs. Conditions Slowly Getting Back to Normal at Many Eastern Terminals.

NEW YORK, May 28.—Danger that industry throughout the country will suffer further demoralization from the railroad freight congestion situation seems to have passed. A week ago the Interstate Commerce Commission, due to the seriousness of stagnated transportation facilities in which tens of thousands of freight cars were standing idle in railroad yards generally east of the Mississippi River, began to invoke the emergency powers granted the commission under the Federal Transportation Act.

Since the commission's activities began, conditions have slowly improved until at present all danger is over, according to information gathered by The Times. Aside from reports from Pittsburgh, Buffalo and other congested centers which indicate a marked amelioration of the freight jam, New York railroad officials yesterday testified that conditions are rapidly becoming normal.

APPROACHING NORMAL.

The Pennsylvania Railroad announced:

"We are approaching normal and our problem is improving daily. Loaded freight cars are moving freely east and west. There is no longer any congestion anywhere along our line. The Pennsylvania is probably the best example of the improvement. We are now moving coal with facility and are able to send empty coal cars back to the mines for prompt reloading. The situation at New York has so far improved that we have fifty tug cranes now working day and night lightening freight. Putting more cranes in freight yards has also helped."

The Lackawanna Railroad reported:

"Everything now seems to be in satisfactory shape and we are virtually clear of freight congestion. The New Jersey situation is clearing and though improvement has been slow it has been steady. We will be back to absolute normal in a few days."

The Baltimore and Ohio Railroad officials say:

"We have been clearing congestion as fast as possible and the situation is greatly improved."

"This Erie is now in good shape," was the report at the general office of the Erie. "We are pretty well out of the hole. The unloading and lightening of 1100 cars in a single day is a record which we accomplished two days ago."

The New York Central and other roads were able to give satisfactory reports.

ASKED CO-OPERATION.

The Interstate Commerce Commission on May 17, alarmed at the local situation, appealed to State, national and local officials to co-operate in relieving the freight congestion situation which had industry and commerce by the throat and seemed slowly to be choking them to death.

By direction of the commission, thousands of box cars which had been lying idle in the terminals of New Jersey and elsewhere for weeks were made up into long trains and thrown back into traffic circulation. Under the Federal supervision, the railways declared traffic embargoes on certain freights in order to give the empty cars a chance.

The result of this Federal intervention has been exceedingly good in the interest of adding facilities to receive raw materials and move finished products and mainly to relieve a food tie-up which threatened many of the larger cities including New York.

One of the most muddled situations revolved about the Pittsburgh area, including the great industrial district of Pennsylvania and Ohio. Here the railroads are reported as beginning to move loaded cars which have been out of luck. Of course, no freight is necessary where the question is simply one of storage.

It was announced at Hoover headquarters that the New York organization for Hoover would be transferred to this city within the next day or two. The advances guard of the eastern Hoover contingent is expected tomorrow. Frank H. Hitchcock arrived today and talked with several party leaders.

SLASH HAIRCUT PRICES SOON.

NEW YORK, May 28.—Prices of shaves and haircuts in New York soon will be cut to 15 and 25 cents, respectively, according to Leon Worthal, general organizer of the International Barbers' Union. New barber shops, he said, will be opened by the barbers' union or individual union members.

Barbers, he said, will receive \$30 a week with 50 per cent of all earnings above receipts of \$45 a week.

EXTORTION CHARGED New York Clothing Men Are Fined.

Selling Twenty-Dollar Suits for Forty Dollars Costs Firm \$31,000.

Government Indicts Special Sugar Hog; Straw Hats Perched Down.

SYRACUSE (N. Y.) May 28.

Weed's, Inc., Binghamton clothing, tried in United States court under Justice Martin T. Stanton here, were found guilty this morning on all of eight counts in a Federal indictment charging them with profiteering.

The court imposed a fine of \$61,000 upon the firm.

Six counts covered sales actually made and a fine of \$18,000 was imposed for each of them.

The charges in these counts were as follows:

The sale of a suit of clothes costing \$25 for \$40.

The sale of a suit of clothes costing \$30 for \$45.

The sale of a suit of clothes costing \$35 for \$50.

The sale of a suit of clothes costing \$40 for \$55.

The sale of a suit of clothes costing \$45 for \$60.

The sale of a suit of clothes costing \$50 for \$65.

The sale of a suit of clothes costing \$55 for \$70.

The sale of a suit of clothes costing \$60 for \$75.

The sale of a suit of clothes costing \$65 for \$80.

The sale of a suit of clothes costing \$70 for \$85.

The sale of a suit of clothes costing \$75 for \$90.

The sale of a suit of clothes costing \$80 for \$95.

The sale of a suit of clothes costing \$85 for \$100.

The sale of a suit of clothes costing \$90 for \$105.

The sale of a suit of clothes costing \$95 for \$110.

The sale of a suit of clothes costing \$100 for \$115.

The sale of a suit of clothes costing \$105 for \$120.

CONSERVE FUEL CLUB'S APPEAL

Secretary Says It Is Up to Car Owners to Prevent a Tie-up of Vehicles.

The following appeal, addressed to the automobile owners of Southern California, was issued yesterday by the Automobile Club:

"It rests with the automobile owners of the State whether or not all touring cars will be entirely tied up on account of a lack of motive fuel and therefore an urgent appeal is today issued by the directors and officials of the Automobile Club of Southern California, in behalf of the motorists of the State, to conserve at once in the use of gasoline.

"A serious crisis can be averted only if the automobile owners themselves curtail the use of gasoline to the last degree. The situation hourly is becoming more precarious, but there will be no cause for alarm if, for a period of ten weeks, each motorist will use 50 per cent less gasoline daily than he has been accustomed to use."

STANDISH MITCHELL, Secretary of Automobile Club of Southern California.

VIGOR OF TRADE GROWTH PROVED

Foreign Commerce Dinner is Prophetic of Sea Power.

Notable Visitors Show Vast Opportunities Waiting.

Lessons of Big Convention Sketched by Delegates.

Concrete evidence that the Los Angeles Chamber of Commerce delegation to the recent National Foreign Trade Convention at San Francisco has stimulated efforts to acquire world trade for Southern California was very apparent until late last night at Jahnke's Cafe, where more than 100 members of the delegation dined and made their reports of the group sessions they were assigned to attend. Enthusiasm ran high and a co-operative spirit was shown that was declared to assure a steady and permanent growth of overseas trade for this port.

Distinguished visitors, veiled in foreign trade, opened the long program. These included Julian Arnold, American commercial attaché at Peking, who after graduating from the University of California passed sixteen years in China studying its development and relations with the world; Dr. W. E. Augustin, professor of foreign trade in New York University and editor of the New York Commercial; Dr. Jose Saenz, Consul of Panama and Cuba, and Henry M. Hill, Consul-General for Panama in San Salvador. Maynard McPhee, president of the Chamber of Commerce, and Sam L. Kresler, chairman of the Foreign Trade Committee of that organization, presided.

The occasion also was the last appearance of William Dunkerley as manager of the chamber's foreign trade department. He will assume his duties as executive secretary of the Pasadena Chamber of Commerce June 1.

Reports of the score of delegates were interesting and stimulating, indicating that the convention was of great value in an educational way and established standards for developing trade at this point.

Mr. Arnold's talk was a rapid fire of facts about China and highly optimistic as to future trade. He cited the fact that three-fourths of the world's population lives near the Pacific and Indian oceans and that China not only holds 400,000,000 of consuming humans, but also has coal enough to supply the world for the next 100 years and is supplied with unlimited iron ore.

Dr. Augustin pointed out the importance of the farmer, the small town manufacturer and the rural banker in foreign trade, showing that the farmer develops 40 per cent of the total exports and that 45 per cent of the total manufactured products shipped abroad are consumed in communities of less than 50,000 population.

Dr. Saenz made a graceful address in Spanish, to which a reply in the same language was made by R. E. Tracy.

Mr. Hill made an extended address on the possibilities of trade in his country, warning his hearers that they must hurry before others take advantage of the situation.

"The merchants of the Latin countries are anxious to make their purchases from and trade with the United States as long as this country offers the same advantages as are now offered by England and Japan. There seems to be a lack of interest in this country to develop trading, and up to this time commercial relations are dormant with the Spanish-American republics, and for the purpose of establishing closer commercial relations I have undertaken at considerable expense and time trips to the various Spanish republics, to study their financial and commercial conditions."

"I conceived the plan of establishing in each one of the Spanish-American republics an office to represent American firms, where a permanent exhibit of its products will be established, which the merchants may visit and examine, thus office to be connected with the vast warehouses and depositories which we expect to erect and construct very shortly at Colon, Republic of Panama, Central America. The government will supervise these depositories, which safely keep all classes of merchandise which would have a ready sale in Central and South America and the inhabitants of the Canal Zone. From them vessels can be supplied to convey the merchandise through the canal without paying duty.

"It is my purpose to have in these offices the products of the country where the office is located and send samples to the United States and to publish a daily commercial newspaper dedicated to the advancement of trade and friendly relations between the United States and Central and South America."

DR. C. S. PATTON (on Ladder) Fighting Fire at First Congregational Church.

Look! the roofs on fire. All looked, then fled. Dr. C. S. Patton, pastor of the church, was the first to see the flames at the front of the building at the time. While one boy gave the alarm, the pastor, with the aid of others, removed books and furniture to the sidewalk.

Then he helped the firemen fight the blaze, hauling a line of hose up a ladder to the roof. He lost his hat in the process, but that made no difference.

The fire threatened the parish house next door, at 321 South Hope street. The occupants, Mrs. Bertha M. Ross, her daughter, Eunice, 19 years of age, and an elderly caretaker, Stephen Coult, hastily left the house, taking a few valued articles with them. Neighbors and policemen went to their aid and soon had most of the household goods moved onto the lawn.

A large crowd that gathered quickly in the streets threatened to impede the work of fire fighting, till Lieut. Williams and police Phillips and Schofield formed a line of thirty policemen.

The flames spread rapidly in the dry timbers of the church and were subdued only after a stubborn half-hour battle.

Fire Chief Scott made an investigation of the blaze. Witnesses said it began between the ceiling and the roof, at a place where the only possible cause was crossed wires.

Standing before the smoldering church, Dr. Patton calmed excited members of the flock who had gathered.

"We will hold our regular services tomorrow," he announced. "It takes more than a fire to stop us."

"Did you save your sermon?" he was asked.

"I saved it first," he replied with a smile.

JUDGES' ECONOMICAL CAMPAIGN HITS REEF.

FOUR AGREE TO CUT COST OF POLITICS; ONE'S FRIENDS REFUSE TO LET HIM.

Billboards and other costly paraphernalia of politics yesterday got all mixed up with the unique effort of four Los Angeles judges to take the tack out of the high cost of campaigning for office. Candidates all for a seat on the bench of the Second District Court of Appeals, these jurists were bound by a mutual agreement to practice that economy suitable to an aspirant for a judicial office. And then the friends of Superior Judge Works threw a monkey wrench into the retrenchment machinery.

Superior Judges Craik, Wells and Works and Associate Justice Thomas of the Appellate Court are the candidates. They are accustomed to the high cost of political campaigns. One and all, they agreed to eschew billboards, posters, placards, mass meetings and other things that have been known to cost a local candidate for the bench as much as \$20,000.

But yesterday friends of Judge Works sought him out with the announcement that they were about to launch an expensive campaign in his favor. The judge objected, warning the friends judiciously decided they were in no way bound thereby. And the speaker in his decision there was no appeal.

The three remaining candidates, advised by Judge Works that he was to the hands of his friends only smiled and took another reef in their determination.

There is still no chance for substitution on the part of the billboard trust, they aver.

JANE HARTIGAN FAILS TO APPEAR IN COURT.

COMPLAINANT AGAINST OWNER OF BARNES CIRCUS BOUGHT BY JUDGE CRAIK.

Judge Craik yesterday paged Jane Hartigan. This young woman, who is seeking to compel Al G. Barnes, circus man, to provide for her two children, claiming he is their father, is missing. Mr. Barnes has been in court twice, to defend the charge. The former hearing was continued until yesterday because of the absence of Jane Hartigan. Yesterday Mr. Barnes made a statement from the stand. He testified: "A young woman named Hartigan called me up and said Jane Hartigan wasn't going to be at the hearing and wanted me to tell the court she said Jane Hartigan was going away. Jane Hartigan had better tell the court. Miss Earl asked me to meet her and I did at a hotel where she said Jane Hartigan was going away. Last evening Jane Hartigan called me up and said she was going away and to have the case dismissed. She said she was going far away."

Judge Craik continued the case until next Tuesday in the expectation that Jane Hartigan would be heard from.

CRUSHED UNDER CAR.

Saleman Meets Death When Confused by Traffic Rush.

Caught in the heavy traffic at Fifth and Main streets yesterday morning, Frank W. Putnam, 49 years of age, a drug salesman of 332 East Twelfth street, was crushed to death beneath the tires of a South Pasadena Pacific Electric car. His body was removed to the undertaking rooms of Cunningham & O'Connor.

According to the police, Mr. Putnam became confused while attempting to cross the street, and to avoid being struck by an automobile, stepped into the path of the street car. Motorman E. M. Gardner, the police say, attempted in every way possible to stop the car, but was unable to do so.

FLINTHAMS ARE DENIED DECREE.

For Children's Sake Court Urges Reconciliation.

Craik's Eyes Fill as Young Cuddle Both Parents.

Declares Forester and Wife Are Both Blameworthy.

"The divorce court is a looking glass where the parties to the action can see themselves reflected as others see them," commented Judge Craik yesterday in denying Mrs. Helen B. Flintham a divorce on her complaint and Stuart J. Flintham, county forester, a decree on his cross-complaint. Both charged cruelty. Mrs. Flintham said her husband was cross and irritable. One day while trimming a palm, she said, he threw her on the ground and swore at her. Two neighbors who saw the incident, testified that Mr. Flintham merely took the saw from his wife and trimmed the tree himself. Other neighbors said she was flirtatious and silly over men who called there and also nagged her husband.

Because spectators laughed at times, the court said it would ease as though the case was a joke, but really it was one of the tragedies of life.

"The antidote for tears is laughter," the court said.

The two little children of the Flinthams were in court, first leaving the mother, then rushing up to the father. They laid their heads on their parents' shoulders. This spectacle of innocent childhood brought tears to the eyes of the court.

Judge Craik held that both parents were more or less to blame. He said there was no real cruelty, according to the evidence, and under the law incompatibility was cause for divorce. "To be happy though married, it is necessary to be unselfish," he declared. He said the couple should become reconciled at least for the welfare of their children.

WET-DRY ISSUE TO BE DEBATED.

Chapman Challenges Local Anti-Saloon League and A. J. Wallace Accepts.

His challenge to the Anti-Saloon League forces here having been accepted, Charles A. Windle, the noted "wet" speaker of Chicago, will debate the question, "Wet vs. Dry," with former Lieut.-Gov. Wallace at Trinity Auditorium next Tuesday evening.

Tickets signed by Henry H. Childers for Mr. Windle and by S. T. Montgomery for the Anti-Saloon League are at the presiding officer shall make no remarks on the subject and that the speakers shall be strictly limited to fifty minutes each.

The league has sent out a letter to all Los Angeles pastors, asking that they secure the debate to their congregations. Free tickets, reserving seats in the auditorium till 7:45 p.m., are to be given out at the league's office in the Van Nuys Building.

MEADDOO WILL SPEAK.

To Take Part in Memorial Day Program at Forest Lawn, Glendale.

William Gibbs Meadood, former Secretary of the Treasury, who is now visiting in Pasadena, will be one of the principal speakers at the memorial exercises to be held at Forest Lawn Memorial Park in Glendale Monday afternoon by the American Legion.

The exercises are to take place at 2 o'clock. A navy dirigible from San Diego will straggle over the graves of World War soldiers. Constance Balfour will sing and Mr. Meadood will then make a short speech.

Gold star women of the auxiliary will visit Forest Lawn Cemetery tomorrow forenoon at 10 o'clock to assist in loading with flowers a truck which will convey the blossoms to San Diego where they will be loaded into the dirigible which is to bring them back Monday.

NEED MORE FIREMEN.

Grass Fires are Occurring at Rate of Fifty a Day, Council Hears.

The employment of twenty-five additional firemen for four months beginning June 1, was asked yesterday by the Fire Commission in a communication to the Council. Chief Scott and the commissioners point out that grass fires are becoming a menace to the city and are costing property to clean up vacant lots and to carry on other work to cope with the grass fire situation. It is stated.

LOS ANGELES PLANES GO SOUTH OF BORDER.

LOWER CALIFORNIA GOVERNOR ELANS MAIL SERVICE FROM MEXICALI.

A mail and government business service between Mexico and Los Angeles, Lower California, is now being worked out by Gov. Esteban Cantu and his associates following the delivery to the Mexican officials of two Curtiss JN-4D planes, purchased and delivered from this city. Announcement of the sale of the planes and the service into which it is planned to put them was made here yesterday by Irving G. Dines, sales manager of the Chaplin aviation field in Mexicali in three hours and twenty-five minutes, carrying as passengers Mr. Irving G. Dines and thereby. An idea of the service had to be obtained from the State Department to allow the planes to cross the border. A stop was made in Calexico, on the American side, where the legal preliminaries were satisfied. Then Mexican flags were hoisted and the two planes crossed the international line and were greeted with cheers by the Mexican officials and populace.

Aviator Paine, according to Mr. Dines, will be the civilian instructor to Mexican aviators, whom Gov. Cantu will have trained by the planes. The two "ships" are expected to be making regular trips to Tia Juana and other points of Lower California with mail and government business soon. Other sales, to be handled through Los Angeles, are expected to follow the first order. The two planes cost Gov. Cantu approximately \$10,000. They have ninety-horsepower engines and are capable of making seventy-five miles an hour.

The Literary Digest

COMPANY (Publishers of the Famous NEW Standard Dictionary), NEW YORK

This image shows a vertical, high-contrast black and white scan of a textured surface, likely a book cover or endpaper. A prominent vertical crease or fold line runs down the center. The surface is covered in numerous small, dark specks and fibers, giving it a grainy appearance. The lighting is uneven, with the left side being darker and the right side being lighter. There are some faint, illegible markings or text visible in the upper portion of the image.

QOOST IN WATER RATES APPROVED

City Council Votes Increase to be Effective June 1.

Sinks \$700,000 Annual Income to City Coffers.

President Workman Protests Sum for Sinking Fund.

Lower and higher water rates to be charged to the 190,000 consumers controlled by the city of Los Angeles were formally approved yesterday in the City Council voted to support the request for a raise in rates made by the Public Service Commissioners. The new rates will take effect June 1 and will be 35 to 40 per cent higher than those which have been charged. The total revenue which the new rates will furnish, estimated at about \$700,000 a year, will be used for retirement salaries and wages and betterments and extensions of the city system.

In view of the fact that seven members of the council were needed to pass the ordinance, and that there were present six members who would vote against the increase, President Workman protested, in order to avoid the necessity for a special session of the council today in order to secure the attendance of Councilmen Langford and Sanborn, to vote for the increase. President Workman, on record, however, as stating that he believed that an increase was necessary, he registered his protest at the inability of the Public Service Commissioners to increase the revenue more than \$200,000 a year additional to the interest and sinking funds outstanding aqueduct bonds. The increased rate, 45,000 consumers, users of water, will be paid by the increase established the minimum rate at 75 cents with instead of 50 cents. The total increase is that raising to 100 cents per 100 cubic feet for the 10,000 feet of water used, the new being 7 cents.

WATER BOARD HEADS GET SALARY RISES.

The salaries of forty-eight heads of departments and executives under the Board of Public Service Commission were increased yesterday afternoon a total of \$150 a month. The highest officer increased Auditor L. M. Anderson, whose salary was increased from \$2500 a month. Chief Clerk H. L. Smith was increased from \$175 to \$200 a month.

PAY HONOR TO NATION'S DEAD

Southern California Towns Observe Memorial Day.

Elaborate Program Arranged at Long Beach.

Battleships Will Assist at the Beach Cities.

(EXCLUSIVE DISPATCH.)

WHITTIER, May 28.—All in in readiness here for the observance of Memorial Day Sunday and Monday. At the First Friends Church the pastor, Rev. F. W. Dett, will give a special memorial service Sunday morning. Monday services will be held at all cemeteries. At Whittier Heights Memorial Park services will be held at 9:30, followed by a similar service at Mt. Olive cemetery. At 2 o'clock in the afternoon a special service will be held at Plymouth Congregational Church, the sermon being given by Rev. E. K. Day.

SIX MONTHS I COULDN'T WORK

Lidia E. Piskman's Vegetable Compound Made Me Strong and Able to Work—I Recommend It To All My Friends.

Raymond, N. J.—"I had pains in back and legs so that I could not stand and I was unable to do any work. I felt so tired all the time, had bad headaches, and for six months I could not work. I was treated by a physician and a doctor, but got no relief. A friend told me about Lydia E. Piskman's Vegetable Compound and it has helped me very much. I am well and strong and now able to do my work. I can not thank you enough and I recommend your medicine to my friends who are sick."—Mrs. Raymond, N. J.

It must be admitted by every fair-minded, intelligent person that a medicine could not live and grow in popularity for over forty years, and today hold a record for such wonderful success as does Lydia E. Piskman's Vegetable Compound, without possessing great virtues and actual worth. Such a medicine must be based upon a sound and tested standard and dependable by every thinking person.

SCHOOL CADETS PASS IN REVIEW.

Soldier Students Stage Parade at Long Beach.

Win High Praise from Army Officers and Veterans.

Girls Make Fine Appearance on Drill Field.

(EXCLUSIVE DISPATCH.)

LONG BEACH, May 28.—In the presence of more than 3000 persons, the members of the Reserve Officers Training Corps, 500 in number and 200 members of the girls cadet corps of the Poly High School staged the most impressive and elaborate military review in the history of the school. The event was in honor of Memorial Day.

The column of public school pupils will form at the Elise-Young school under the direction of Comrade Rogers and Mrs. Elise Patterson. After the services at the park grounds, the W.R.C. and ladies of the G.A.R. in charge of Comrade Palmer, will form in line with the G.A.R. Veterans and other veterans, under the direction of Comrade Tibbets and Bird, will take places on the right and left flanks.

The column of public school pupils will form at the Elise-Young school under the direction of Comrade Rogers and Mrs. Elise Patterson. THREE SAILORS MEET DEATH BY ACCIDENTS.

FATAL MISHAPS OCCUR IN PERIOD OF TWENTY-FOUR HOURS.

(LOCAL CORRESPONDENCE.)
LOS ANGELES, May 28.—Henry Pieper, a third-class yeoman on the U.S.S. Arctostock, mother ship for the seaplanes attached to the Pacific Fleet, was instantly killed late yesterday when he was struck on the head by the propeller of a seaplane being started out the boat.

Pieper was knocked into the bay, according to report from naval headquarters here. It was reported that he was almost decapitated. His body was not recovered. Officers on the Arctostock stated that Pieper was to leave here today for Philadelphia to attend an aviation school. His mother resides in East St. Louis, Ill.

Pieper was the third sailor from the Pacific Fleet to be accidentally killed within the last twenty-four hours. Alexander F. Madison, a seaman on the U.S.S. Arkansas, was killed yesterday when he fell down the hatch on the vessel. His body was shipped to his mother, Mrs. Pearl Madison of Milwaukee, Wis. today.

The remains of Frank A. Hansen, a sailor from the Submarine Buoy Tender, were shipped east to relatives in Charleston, S. C. today. Hansen was instantly killed in an automobile accident at Bicknell and Main streets, Los Angeles, on Wednesday evening.

COLLEGE CLOSES.

Program for Redlands Commencement is Announced.

(LOCAL CORRESPONDENCE.)
REDLANDS, May 28.—Commencement Week at the University of Redlands will begin on the evening of Saturday, June 12, when there will be held the annual festival of the College of Fine Arts under the direction of Prof. E. A. Bertrand and Prof. Charles Macdonald.

The Baccalaureate sermon will be preached at the First Baptist Church the following morning and the Rev. Edward Hallenbeck, D.D., of San Diego, will be the speaker. That evening the Rev. A. B. Burphy will address the members of the Y.M.C.A. and the Y.W.C.A. of the university.

There is but one big event on the calendar for Monday and that is the Zanzibar, the closing festival of the students. This year "Robin Hood," the opera, will be presented.

Tuesday morning the board of trustees will be called together for a meeting by Matthew B. Jones of Los Angeles, the president. The alumni luncheon is to be held at noon and that afternoon will be class day exercises in the evening. President and Mrs. Victor Duke will give a reception.

The Rev. Daniel F. Fox, D.D., will deliver the sermon to the graduates who will receive their degrees Wednesday morning at the First Baptist Church. Announcement will be made by the president of the Board of Trustees. At 12:30 the annual University dinner will be served.

(LOCAL CORRESPONDENCE.)
PASADENA, May 28.—Former Secretary of the Treasury and Mrs. William G. Macadoo spent this afternoon seeing how Southern California oranges are packed and shipped. They spent the afternoon at an orange packing-house in Lamanda Park. Tonight, accompanied by Mr. and Mrs. J. B. Coulston, their hosts at the Hotel Maryland here, and other friends, they attended the Mission Play at San Gabriel.

A trip to Big Bear Lake tomorrow is contemplated. Mr. and Mrs. Macadoo will remain at the Maryland here until Monday, starting then on their motor trip to San Francisco.

Mr. and Mrs. Macadoo had a number of callers this morning, all the visitors being Southern Californians. The visits had no political significance, it was stated.

Special values in furniture and rugs—ten floors to select from—ideal shopping conditions. Pasadena Furniture Co., Raymond and Holly, Pasadena.—(Advertisement.)

FUNERAL OF PIONEER.

Services Honoring Memory of James Fullerton Today.

(EXCLUSIVE DISPATCH.)
SANTA ANA, May 28.—Funeral services will be held tomorrow afternoon at 3 o'clock at the family residence in Orange, for James Fullerton, 71, pioneer of this district, who died suddenly last night at his home in Orange.

He was a native of Ireland, and came to Orange county in 1871, where he lived for the last five years. He was also justice of the peace since 1910.

Three daughters and two sons survive him. Mrs. E. A. Coulston of Los Angeles, Mrs. B. F. Bryan of Whittier, Mrs. Logan Jackson, Edward M. and Arthur W. Fullerton of Orange.

POLICEMEN URGED TO BACK SALVATION ARMY.

CHIEF HOME ORDERS ENVELOPE GIVEN TO EVERY MAN ON CITY FORCE.

Every policeman in Los Angeles was given a Salvation Army envelope yesterday, by order of Chief of Police Home, who is interested in the Salvation Army because of the work it has done in the poorer districts of the city. He urged every officer not only to send in his own contribution, but to get as many others as he can, and turn them in Tuesday at latest.

An approximate total of \$2200 had been received from Thursday noon to yesterday noon from the downtown, police and private donations.

The largest amount from the kettles was \$124, collected by Mrs. A. P. Dougherty today, which has been designated as American Legion Day.

Mayor Snyder has proclaimed tomorrow as Salvation Sunday, and it will be observed by special collections in many churches.

Among those who made substantial donations yesterday, which was Women's Day, are: W. A. Clark, Jr., \$500; Consolidated Pipe Company, \$100; German Seed Company, \$100, and the Murphy Oil Company, \$100.

MOUSE BECOMES STAR.

Performance at Hollywood Festival Amuses Big Crowd.

While more than 3000 people filled the grounds at the Hollywood May Festival last night a little field mouse attracted by the great searchlight, crept to the platform while Miss Dorothy Devore as singing an Irish ballad and became the chief performer of the evening.

After boldly ascending it was suddenly taken with stage fright and prepared to hide under the singer's shoes. With noticeable trepidation still still clinging valiantly Miss Devore stepped from side to side only to be pursued by the mouse. The singer's predicament was soon brought to the attention of the audience and a man near the stage leaped to the rescue and captured the little vagrant. Following the opening address by Mayor Snyder, stars from the motion-picture studios entertained with songs and sketches.

This afternoon a children's doll carriage parade will be held. A carnival with street dancing will feature the program tonight.

Wonder What the Waste Basket Thinks About?

(Copyright, 1929, New York Tribune, Inc.)

I'LL BET I CONTAIN MORE SECRETS THAN ANY OTHER BASKET IN THE WORLD—I'VE.

YOU OUGHT TO SEE WHAT'S IN THAT LOVE LETTER THAT WAS THROWN IN HERE TO ME THIS MORNING—THE STENOGRAPHER THREW IT IN AND TORE IT INTO SMALL BITS FIRST.

—AND SOMEBODY I KNOW IS GOING TO COLLECT THE PIECES AND PUT THEM TOGETHER AND HAVE SOMETHING ON HER.

OH—I HAVE A LOT OF THINGS HAUNDED ME—CAR STUBS—APPLE CORES—ORANGE PEEL—AND ONE DAY THE BOSS THREW HIS OLD GARTERS TO ME.

YOU CAN'T BEAT IT—THE VARIETY OF THINGS THEY HAND ME—I'M HEAVY FULL AGAIN—IT'S BEEN A BIG DAY AND NOW THEY'LL EMPTY ME.

EMPTY! WONDER WHAT I'LL GET TOMORROW, SUCH A LIFE AND OH HOW I ANTICIPATE THE MORROW'S HARVEST—NOT AT ALL EXCITING!

Builds Better Buildings

The rapidly increasing number of buildings of all types and sizes which

is being used proves beyond doubt or argument its practicality and worth.

The building public uniformly selects BUTTONLATH because they know that BUTTONLATH walls and ceilings

—are free from plaster cracks
—are fire and weather proof
—are free from rust and lath stains
—are always rigid and true
—are free from warping
—are remarkably soundproof

And builders of long experience with many types of structures have found that BUTTONLATH

—saves plaster
—saves time of construction
—saves labor costs
—saves in repair bills

Economy is the keynote of all construction today, and, when in addition you can build better buildings by using this improved lathing material—it pays to specify BUTTONLATH.

NEW YORK STOCK EXCHANGE
(BY A. P. NIGHT WIRE)
NEW YORK, May 23.—The approaching holiday had a perceptible effect on the volume of business in the stock market today, dealings falling to normal proportions. The tone was firm to strong almost from the outset, however, especially in seasonal industrials and rails.
Shorts were disposed at times to exert fresh pressure against speculators, however, leading their tentative operations upon hopes of tighter money, but when this condition failed to develop, hasty covering ensued.
Call loans once more held at what has practically become the fixed rate of 6 per cent and many large borrowings at that quotation running into next Tuesday, were reported. Further slight relaxation of time money was observed, but this was almost wholly restricted to thirty-day maturities.
Rafts were far more active than usual, considering the small turnover buying of that division embraced almost a score of the popular high and low grade issues. Accompanying this movement was a steady demand for various railroad bonds at gains of 1 to 2 points. Otherwise the movement continued to concentrate in steels, affiliated equipments, oils and metals and their subsidiaries, with a sprinkling of shipping, leathers and food specialties. Sugars were an exception, falling back toward the close on reports of a cut in the raw material product. Sales amounted to \$10,000 shares.
A sharp reaction in marks, which canceled the greater part of the recent gain, was the noteworthy feature of the foreign exchange market. Among international bankers the Japanese financial situation evoked much discussion. Liberty Bonds and Victory notes were irregular, but foreign issues, notably United Kingdom and Dominion of Canada, strengthened. Total sales par value, aggregated \$15,250,000. Old United States bonds were unchanged on call.

DUN'S WEEKLY TRADE REVIEW.
(BY A. P. NIGHT WIRE)
NEW YORK, May 23.—Dun's business index for the week ending May 22, 1920, shows a general upward trend in most lines of business, with a notable increase in the volume of business in the stock market. The index for the week ending May 22, 1920, is 100.00, compared with 99.50 for the week ending May 15, 1920. The index for the week ending May 22, 1920, is 100.00, compared with 99.50 for the week ending May 15, 1920.
